---

### EXPERIENCE

---

**Technical Lead (Part-time), TheHomeTaste**, Kitchener, ON, CA (Hybrid) Aug 2025 – Present

- Leading the design, architecture, and development of TheHomeTaste, a curated food-tech marketplace with Customer, Cook, and Delivery apps.
- Developed scalable APIs and features (Kitchens, Menus, Analytics, etc.) using React Native, Node.js, MongoDB, Redis, and AWS (Amplify, Cognito, S3, CloudFront, EC2, SNS).
- Working closely with **Conestoga College Venture Lab** coaches, aligning technical development with startup growth and investor readiness.
- Mentor junior developers, establish coding standards, and represent TheHomeTaste in technical discussions with stakeholders.

**Self Employed (Part-Time), Super Tutor**, Super Prof, Kitchener, ON June 2024 – August 2025

- Delivered **25+ hours of one-on-one tutoring** to learners ranging from students to adult professionals via Google Meet, using tools such as VS Code, GitHub, and collaborative coding platforms.
- Taught core and advanced topics in Java, Python, C++, Qt (Py Side), JavaScript, and DSA, helping students build conceptual understanding and hands-on skills.

**Self Employed (Part-Time), Private Tutor**, Varsity Tutors, Kitchener ON July 2024 – August 2025

- Tutored **50+ students across 65+ hours**, supporting high school, college, and adult learners in programming, software fundamentals, and technical interview prep.
- Delivered customized instruction in Java, Python, C++, C, React.js, HTML/CSS, and DSA via Varsity's dedicated virtual platform and tools.

**Technical Trainer**, Cantilever Labs, Chandigarh IN

January 2023 – October 2023

- Instructed over **400 students** in foundational and advanced technologies using a structured **180-hour** curriculum covering React, Node.js, MongoDB, and advanced JS frameworks and simulating full-stack problem-solving scenarios.
- Delivered **50+ project-based** labs, including food ordering apps, schedulers, and dynamic dashboards with REST APIs, Redux, and Tailwind CSS.
- Mentored students in core programming (C++, Java) and system design, aligning instruction with industry workflows, CI/CD, and deployment best practices.

**Software Trainer**, Ed slash, Robotics Services, Delhi IN

October 2022 – October 2023

- Educated and guided students in tech stack of C/C++, Python, and Web Development.
- Overlooked over **100 students** in live projects for MNCs and completed training.

**Technology Trainer**, Hematite Infotech, Pune IN

April 2022 – September 2022

- Curated interest and skills in **Python** and **Machine Learning** for college students across India.
- Collaborated with **2+ teams** to design and upload video content for students.

**Software Developer**, U Launch, Delhi IN

October 2021 – March 2022

- **Spearheaded the frontend revamp** of the company website using WordPress and WooCommerce, enhancing visual appeal and responsiveness across devices.
- Developed dynamic UI components using Custom Themes and Advanced Custom Fields (ACF), **improving content management efficiency by 40%**.
- Ensured clean, modular PHP code and seamless integration with MySQL, resulting in a **25% boost in page load performance** and improved customer experience.

---
